

DROWNING IN CRUDE GLYCEROL?

Enhance Your Biodiesel Economics

- Burns **Raw** Crude Glycerol
- Capture the Energy for **Heating** and **Power**
- Emissions Proven **Safe**
- **Simple**, Reliable Design
- Short Payback Period with **High Investment Returns**

A 100k BTU/hour prototype has been built, tested with various qualities of crude glycerol, and characterized for emissions. Diversified Energy seeks strategic financial partners to build a full-scale pilot-plant integrated with a boiler and to position the technology for commercial sales.
